ANGUILLA

Anguilla is a small island in the Caribbean Sea adjacent to Saint Martin, east of Puerto Rico. About 13,000 residents inhabit the island. It is an English speaking British dependant territory. All legislation is based on **British Common Law**.

ANGUILLA

The current versions of the International Company Act and the Limited Liability Company Act were implemented in 2000. The British government provided assistance to develop a unique online incorporation system in Anguilla. This gives to Anguilla a competitive edge as company formation can be done **24 hours a day, 7 days a week** in a matter of minutes per company.

- » The corporate e-documents can be simply **emailed** to the customer to start real business **immediately**. Original paper documentation will follow shortly.

UNITRUST CAPITAL CORP. is licensed with the Anguilla's Commercial Online Registration Network as an Overseas Agent for incorporation of International Business Companies, formation of Limited Liability Companies in Anguilla, and other corporate services.
